Chamber of Commerce Planning Annual Banquet Monday Night

The Hamlin Chamber of Commerce, which we might term the Commercial Host for the City of Hamlin, is planning its annual banquet to be held next Monday night in the basement of the Methodist Church.

It is presumed that at this meeting the new officers will be chosen, a summary of the work done during the past year will be given, and perhaps some of the objectives to be attempted will be suggested for the next twelve months.

EVERYBODY IS INVITED

The committee appointed to sell tickets are requested to invite everybody to come and enjoy the annual "round up." There are certain business men in Hamlin who contribute monthly to the running expenses of the Chamber of Commerce, these fellows are expected to be there and then it is expected that every business, great or small, in Hamlin will have a representative or two at the banquet.

YOU WILL GET A BARGAIN

The women of the Methodist Church are to furnish the eats, and that means you will get a bountiful plate at a bargain. Think of it! Chicken, the Methodist kind, Turkey and all the "izzards" that go with it including the latest model of dressing plus the cranberry sauce, the hot coffee and rich cream, the famous mashed potatoes, the hot rolls and the yellow gravy, and maybe some kind of delicious pie.—A L L FOR FIFTY CENTS. The fellow who turns down buying a ticket is not much of a bargain taker—now, that's a fact.

DON'T GET LEFT, GET A TICKET

When the night comes Friday night, this week, you must have your name in the "pot", and that means a ticket in your pocket, and your name on the 'eating list.' The ladies must know how many to prepare for and this must be by Friday night, Feb. 14. Somebody will come see you and to be sure you are included in the number to be served, better hunt up the ticket sellers and wait on your self. Just 50c. The headquarters for tickets is at the Bank. Now here is a hint, this is not just a

LAYMAN'S MEETING LAST THURSDAY

At the Layman's Banquet Thursday evening of last week, those present will vouch for the fact that it was well worth while. We had several from out of town present. The main speaker being Mr. Ray Nichols of Vernon, Texas, Lay Leader of the Northwest Texas Conference, Mr. W. C. Church, of Stith, Texas, District Lay Leader, and Rev. C. A. Long, Presiding Elder of Abilene, were present and made a short talk. Our local Lay Leader, J. E. Moody, was toastmaster and had arranged on interesting program.

Mrs. Joe McCrary rendered an accordion solo that was very much appreciated. Mrs. Gregg and Mrs. Longino, each sang a solo that was enjoyed. The evening's program as a whole was very good and well attended.

Since this was the first meeting of this nature that the church has had for some years it is quite possible that we will be having another before many months. Such social hours are the life of the community spirit.

H. A. LONGINO, Pastor.

THANKFUL FOR FIREMEN

Last week, on one of the coldest mornings, perhaps about four A. M. a fire was discovered in the servant's house and garage at the Mrs. Sue Hill Patterson place, across the street from the Baptist Church.

It was a bad time to call out men from warm beds to fight a fire, but it took fighting to keep several residences from burning.

Mrs. Patterson wants the Herald to say for her that she deeply appreciates the work of the men in saving her home.

The garage and servant's room were almost a complete loss and one good automobile, belonging to a Mr. Johnson, a cotton buyer, was burned to a crisp.

Well, after all, it could have been worse, and the quick response of the fire boys in the bitter cold saved a lot of good property, for which they merit the thanks of more than one.

WHO? --

Who were the young Hamlin couple out at the Brazos River last Sunday afternoon trying to make a boat out of their car? A car just will not operate in water, sand and quicksand. Who were they?

* * *

were the young Hamlin people several years ago, who were out on the Stamford highway and when the driver saw a poor old Mexican leading a poor old horse behind his cart, spoke out to his car guests thusly, "Now watch how close I can drive to that old horse and not touch him." The old horse died from the shock. You got another guess here.

* * *

Scaring girls by reckless driving, up and down hills and around curves—playing smart this way and that way with danger all around is not the way to make love to a young lady.

* * *

We could ask you to guess who on a little secret marriage—but, O, well, just wait!

There is some new paint, some new equipment, some new faces down town where the Bill Carter Beauty Parlor is. Phillips is putting out the eats and seems to be enjoying his new job while Mrs. Winkels does the cooking.

Mrs. Wade Collins and son, Bill Collins, of Brownfield, and Warren Nobles, who is attending Texas Tech, came down Sunday to visit Mrs. Collins' father, W. D. Eakin and her sister, Mrs. B. W. Nobles and family.

WANT TO DO SEWING

I will do all kinds of plain sewing at reasonable prices. See me at Mrs. Arnold Heard's home in South Hamlin. MRS. OPHIE SIPE. (p)

ROSE SHOPPE HAS FASHION REVUE

On Tuesday, Wednesday and Thursday afternoons the Rose Shoppe entertained friends and customers with an informal Fashion Revue, showing an attractive display of spring's newest in ready-to-wear, including suits, street dresses, afternoon and evening gowns. A pretty selection of hats and other accessories were also included in the show.

Mrs. Frank Johnson had charge of the revue and presented each model, calling special attention to various new features of the style and color of each ensemble. Models were Miss Freda Chastain, Mrs. Henry Albritton, Mrs. Sam Hardy and Mrs. C. C. Jones.

Mrs. Dunn invited guests to the table where Mrs. J. H. Littleton poured coffee. She was assisted by Mrs. W. C. Russell and Mrs. Frank Waggoner, who served cakes.

Otis Hopper is back in his first location with his shop. We could say a "barber shop" but since his new place of business is the former "Monique Soaln," and later the "Gladeola Beauty Shop" quarters, it looks more like a "Gentleman's Beauty Parlor" than a man's barber shop. There are the dainty tinted walls of green and gold, curtains and French Doors—and the past cold days Otis locked himself in and coated his fixtures in a pastel shade of enamel—the whole outfit is too pretty a place for "mere" man to get his dirty face shaved in. It's a "Man's Beauty Shop."

Mrs. E. V. Mitchell, who has been living in Big Spring, came over Monday from their new home in Abilene. Mr. Mitchell is now engaged in the oil royalty and leasing business.

WHAT Others Say

—And—
WHAT WE SAY

The Honorable James Reed of Missouri, a famed Democrat, once neared the position of nominee for president, made one of his famous scathing speeches—scattering alarm and discontent among the farmers of America. It is marvelous how a great country like ours can stand while so much rotten stuff is dished out to the public. Mr. Reed is another "old fossil" living a "defeated" life and dares to stand up and ridicule all efforts that are being attempted to do something for the country, especially the farmer. It is all right to glorify the patriots who established our nation and constitution, but let's not forget that time brings changes, some of which are dangerous—then it is wise and patriotic NOW to find a way to defend ourselves against the changed economic situation as it was for the colonists to resist England's tyranny.

If we are not mistaken this same Reed has been trying to gain a Democratic nomination for President for about 25 years. Perhaps he yet has a faint hope—think of it! What would this man who lives in the "horse and buggy days" do since the horse and buggy faded from the face of this country, and today 30 or 40 million acres of farm lands are not longer needed to produce feed for horses and mules. Mr. Reed does not know his farmers.

There is a sentiment among certain classes of people in this nation to **TURN EVERYTHING FREE**. They would remove all restrictions whatsoever—morally, economically, and financially—even foreign trade and war. Just turn the "wheel" free with little or no governors—remove guards and safety devices. Imagine such a course...

It is mostly men of this though who speak bitterly of anybody any administration that attempts to control and regulate and protect. They are prompted by selfish motives.

Let's suppose, on the economic side, that we go back—turn away from restrictions on child labor—permit again any kind of so called securities to be dumped on the public—suppose we had back the old unsafe free banking system—imagine how much cotton, how much wheat could be produced in this machine age—think of millions of cattle fed from tens of millions of acres that formerly went to maintain "horse power"—to our mind even half "freedom" of doing this and that would ultimately lead to a form of general depression, except for the few. The shadow across the path that leads to happiness and prosperity in our own country today is that vast horde of jobless homeless people. The day has come when "freedom of action" cannot be as unlimited as in the earlier and simpler days of our nation. We have reached a point where social legislation must be had to bring security to the helpless. The cold steel and gas age is far different to the horse and buggy time.

BASIS IS LAID FOR RECOVERY

WASHINGTON, Feb. 8. — The Chamber of Commerce of the United States reported "an excellent basis" had been laid for continued business recovery. "The level of business activity in its Washington review, adding that 'so far in 1936 there has been no recessions.'"

Coincidentally, the Commerce Department noted retail gains in the week ended Wednesday over the

GOVERNOR HOFFMAN says, speaking of the Hauptmann case "I am determined that responsibility shall not be evaded and that every human effort shall be made to bring all persons involved in this horrible crime to the bar of justice. Any unprejudiced person reading the statements and testimony of New Jersey's chief witnesses for the prosecution must be convinced that if they were telling the truth, there are other persons involved in this crime and must agree that no enforcement agency is justified in 'folding up' while there is still so much to be solved in this case."

Those of us who kept the record of evidence, read the summation of the evidence, studied the trial judge's charge, are inclined to think there are others, perhaps more guilty of kidnapping and murder, than the fellow found with one-half of the ransom money.

There are two or three old men in the evidence given who need to be investigated.

same week last year in most of 31 cities studied.

Severe weather retarded sales, the department said, "But there were many healthy signs in industry," it added, noting the snow added soil moisture and killed insects to improve farm prospects.

"At midwinter," the chamber said, "there is an excellent basis for further progress."

"In the middle of 1935 it was possible to say the level (of business activity), if all activities could be cast into a general overage, was the best since 1931."

"By the end of 1935 the evidence was that the level had risen until it was the best since 1930."

"With the opening of Spring, with an absence of untoward major incidents in the interval, the country will have the most favorable employment situation since 1930."

"By last September there had been re-employment in private enterprise of at least 5,000,000 person."

"In January this figure had risen by another half million and an additional half million had had the benefits of temporary employment toward the end of 1935 in connection with retail trade and the seasonal demands it caused."

The chamber warned that if "progress does not come" the failure "can not be laid at the door of private enterprise."

PRIVATE enterprise is a failure when the users of the products of the enterprise have nothing to buy with. The recent depression started when one enterprise found it had built more than it could sell—hence laid men off, stopping the source of sale for some other enterprise—thus it continued—layoffs, shutdowns, less sales, less salaries—any enterprise is a go to the point of supplying the demands under normal condition.

TEXAS UNIVERSITY TO HAVE A GREAT MEMORIAL MUSEUM

AUSTIN, Texas, Feb. 10. — Organization plans for the Texas Memorial Museum Centennial Coin Campaign will set up local organizations in thirty-one districts in Texas, it has been announced here by Beauford H. Jester, of Corsicana, general chairman of the coin committee. Proceeds from the Texas Centennial half-dollars will be used in building the Texas Memorial Museum.

The thirty-one districts, each of which will have a general committee, will coincide with the thirty-one senatorial districts of Texas. The committees for the districts are now being formed by Mr. Jester, who is being aided in the selection of the committees by Harry D. Cross, director of the coin campaign. Announcement of the district committee chairmen will be made within a

short time.

Following announcement of University officials to the effect that the Texas Memorial Museum would be one of popular appeal instead of one of scientific research. Mr. Jester's committee decided to extend the campaign to every section of the entire state, giving each Texas citizen an opportunity to donate to the campaign.

During the pre-construction days of the Museum the campaigns will be conducted in the thirty-one districts and following the ground breaking for the Museum, which will be held on the University campus here on June 7th, the campaign will be conducted largely at the several Centennial Celebrations in progress throughout the state.

"While we know that many substantial subscriptions will accrue to the museum fund," Mr. Jester said, "The popular appeal of the campaign is the opportunity offered every citizen of Texas to become a part of this patriotic endeavor by the purchase of Texas Centennial half-dollars. We are organizing our campaign in such fashion that opportunity will be given every citizen to help us by the purchase of these coins to raise the minimum of \$500,000 needed in addition to the state and federal funds."

President Franklin D. Roosevelt and Vice President John N. Garner have been invited to open the University Centennial Exposition and to participate in the first breaking of ground for the Texas Memorial Museum on the campus of the University of Texas on June 7th.

Klaus Abegg, who for years was connected with the Field Museum in Chicago as a preparator of habitat groups has been appointed to the staff of the Texas University Centennial Exposition and will assist in the preparation of exhibits for the Division of Zoology. All exhibits for the University Centennial Exposition will be prepared with a view to placing them in the Texas Memorial Museum.

The Heiligbrodt collection of in-

sects, consisting of more than ten thousand specimens, including the finest and most complete accumulation of native Texas insects in existence, which was recently presented to the University of Texas will be featured in the University Centennial Exposition and Texas Memorial Museum.

Texas Centennial half-dollars proceeds from the sale of which will be used in building the Texas Memorial Museum on the campus at the University of Texas in Austin are now on sale in 314 banks in 236 Texas towns. The Texas Memorial Museum Coin campaign under the direction of Beauford H. Jester of Corsicana, will be conducted throughout the entire state in order to give every person opportunity to help build the museum by the purchase of Centennial coins.

SWEDONIA 4-H CLUB

Thursday, Feb. 6, the 4-H Club girls met at Swedonia School building. Those present were Billie Mae Jackson, Ruby Jean Young, Mory Frances Jackson, Geraldine Green, and Bernice Reynolds.

The first thing we talked about was who would be our bedroom and pantry demonstrator. We finally found that our bedroom demonstrator would be Ruby Jean Young, provided her room is not too small.

Geraldine Green will be our pantry demonstrator.

For old business we talked about our picnic which we were to have a while back, but were forced to "put it off" until some other time.

We plan to have it Sunday, Feb. 9, if the weather does not prevent.

T. K. SMITH STATE PARK VERY POPULAR

The past Sunday afternoon's warm sunshine caused many Hamlin and Aspermont people to get out of their home and drive about.

One of the most popular spots for a winter drive is to the Brazos River 12 miles north of Hamlin on Highway No. 4, and 8 miles south of Aspermont. Sunday afternoon car after car was seen to take up a cozy position in the new park that is now being developed by the Highway Department, under Mr. Haines, foreman for Stonewall County. Many Hamlin people saw this young park starting, when the formal opening of the new bridge took place. At that time but little had been done, but look at it today. It is assuming a most attractive position for all travelers, and especially fascinating to folks will enjoy a nook for recreation.

LET US NAME THE NEW PARK
"T. K. SMITH PARK"

The Herald man was one of the many who visited the "River" scenery Sunday, and the progress that had been made on the park since the bridge opening was a most agreeable surprise. Also it proved that such a cozy nook is a fine place where "city folks meet city folks and the farmer," all at the same time. Also we learn that the spare acreage now under improvement was donated by Isaiah Smith, a public-spirited farmer, who resides on the south side of the river, and who wanted the lands used for park or recreation purpose.

TREACHEROUS WEEKS

ahead

Reports from health authorities advise that "colds" are widespread and especially severe this year and urge citizens to arm themselves against this insidious illness. Health-wrecking sickness is all too prevalent during this bad-weather season and it is vitally important to take special precautions against the attack of the common cold germ which has become America's Public Health Enemy Number One. Beware the dangers of the treacherous weeks ahead. For your health's sake keep your entire house comfortably warm!

Uneven and inadequate indoor temperatures are a constant danger to health during the treacherous winter months. Sudden changes of temperature, such as those experienced in passing from a warm room to a cold one, appear to be harmful to the tissues of the nose and throat which are the starting places of health-wrecking respiratory diseases. Quick chilling of the body lowers resistance and invites attacks from cold germs.

According to government statistics, diseases of our breathing apparatus are responsible for more deaths than any other single cause. While respiratory diseases often start seriously, they are closely related to "colds" and in many instances are directly traceable to catching cold. There is good reason, therefore, why physicians advise extra care in protecting health during the threatening winter months.

An ounce of prevention is worth a pound of cure when your family's health is concerned and you can reduce the possibility of "colds" during the treacherous weather ahead by the simple precaution of proper ventilation and adequate heat in every room of the house. Try it for your health's sake!

... Community Natural Gas Co.

Don't gamble with America's Public Health Enemy Number One, the common cold germ. Fifty per cent of all disabling diseases start with a "common cold." If you do catch a "cold" consult your family doctor before it has an opportunity to undermine your health.

Isaiah Smith is a son of the late T. K. Smith, a pioneer citizen of that immediate part of Stonewall County. This fact was not brought out in the many names mentioned on the honor list at the bridge opening, therefore the Herald is taking the liberty at this time to express to Isaiah Smith the grateful appreciation of all the people of Hamlin and Stonewall County for his thoughtfulness and public spirit in donating and designating the park site. Now, as an appropriate gesture we hereby name the little park, which is already a thing of beauty, the "T. K. Smith State Park." Of course, it will in time be called just "Smith Park." And that is alright, too.

FURTHER RECOMMENDATIONS

It is not a hard matter to visualize a future for "Smith Park." It is said that where there are no visions the people perish. If that be the case Ye Editor hopes to live a long time. So, we have a vision of further improvement for Smith State Park. It is already a pretty spot, and by a little imagination it gets more attractive as the years go by.

We look upon this place as the meeting place, annually, of the pioneers of Stonewall County when they invite their old friends from Jones, Fisher, King and Kent Counties to be their guests for a day or two of picnic—an old fashion "round-up." When this is started it will take more acreage than Isaiah Smith has thus far designated—but

he has ground yet available, and in time he will be as free-hearted as in the recent weeks.

We suggest an

"ANNUAL ROUND-UP."

There should be a creditable name marker over the Park, to commemorate the pioneer and his son who made the park space possible. This marker should be a shaft fashioned from the discarded column blocks from the court house, that lie idle around the square in Aspermont. This should be a monument, a marker, perhaps twenty or thirty feet high; the name "T. K. Smith State Park" should be carved—and each passer-by for a hundred or even a 1000 years or more would see as they are passing. Don't you think it a good idea. The huge round rock sections belong to all Stonewall County for their property was taxed to buy them. The park also belongs to the people, now. Then let's place due honor where honor belongs.

This park should be lighted to some extent. It is possible. Not far east, down the river the West Texas Utilities Company has a high power line extending from Hamlin to Aspermont. It is practical to run a line about a mile, down the road by the Harrison and Smith homes, to the highway south of the bridge, then across to the park, where one or more lights could be had for the park area. The homes on the high line could enjoy the electric power, and ere long, Isaiah Smith will have a service station and small store on

the south side of the bridge, that would consume electric power, and his switch could control the park light or lights. This is no idle dream.

Mr. Smith has intimated that as improvements go on he will designate more lands—already set with cedar and many kinds of native flora. The land is sandy, gravelly, and varied, and with a little work its beautification is easy.

Out there now are drive-ways, rock-tables, parking spaces, cactus plots, decorative rocks, natural shrubbery, accumulated native plants, and one of the most beautiful Lone Star plots, visible for one mile before one crosses the bridge going north. This is a double Star,

the inner star being encircled by a ring of white rocks. In this are many species of cacti, and later the Blue Bonnet will be planted, or other early spring flowers. The rocks will be white-washed and kept that way from time to time. Then there are numbers of rock tables, some of them placed on the old column sections from the court house in Aspermont. Yes, and they have one well built furnace.

Another suggestion: We are sure that some way will be found to beautify those great old concrete piers that stand from the old bridge. One could think of each panel of the old concrete as carrying a lovely picture, characteristic of the West Texas life, but a great rise in the river would ruin that idea, but something else will be worked out so that those huge piers will be attractive.

Here is one more important thing: The people of Aspermont are proud of their little recreation park and the good women of that little city are going to see to it that their park is to be kept clean and decent. This means that visitors will be held responsible for what they do and what they leave on the grounds.

Here is another feature of this park: The river nearly always has a little water in it. And the sand is clean and white, and there is one place the kiddoes (old ones too) can pull off their shoes and wade. No, not swim—the water is never that deep. Certainly the water is not for drinking—it is too salty for that.

Just keep this in mind, here is one play-spot for this great wide-open country—let's co-operate with Stonewall County in its development and upkeep. "T. K. SMITH STATE PARK," Stonewall County, on the Brazos.

METHODIST CHURCH

A very successful class in the "Stewardship of Life" will come to a close this Friday night. The class has increased in number and interest since the first meeting period. Dr. Pearce is a wonderful instructor and presents the opportunities and responsibilities that are ours in a way to carry home facts that helps one be a better citizen as well as a better Christian. As this is the closing night come and get the cream of the series of discussions.

Sunday 11:00 A. M. The subject for the message will be: "The Dream of a Boy." This is Boy Scout Week and it is in honor of this fine group of boys that I want to bring this message. Some of us older persons are still having "boyish" dreams so there might be something in it for us, too.

The cold weather of our Januaries and Februaries are of great concern to a minister. The farmer may wonder if his oats and barley is frozen out, but we find that some people are as susceptible to being frozen out of their Christian Experience and church life as are oats and wheat. It is but natural that there are some Sundays that are too severe for some people and they are forced to remain at home but on the first nice Sunday they reappear at church. If frozen out religiously they just do not reappear to resume their places. Don't become a frozen spot in the organization of the church of your community.

H. A. LONGINO, Pastor.

BOY SCOUTS

ACTIVITIES REPORTED BY
SCOUTMASTER

With the opening of the Boy Scout week, beginning Feb. 7, we closed the celebration of our Twenty-fifth Anniversary. We are going ahead into another year of Scouting.

We have, during the past year, as have Boy Scouts in America, observed, through various activities, the Silver Jubilee and the benefits were far reaching. Our interest in the World Jamboree is proof in the soundness of our conviction that every Boy Scout organization represented in the Jamboree would benefit in many ways. The members would be inspired, and materially helped; the leadership and new boy interest would be developed.

We are looking forward to the World Jamboree to be held in 1937 at Washington, as a still greater experience than the one scheduled for 1935, organized efforts for maintaining the interests of the group who were to have attended have been developed. Because of the fact that the Jamboree will increase the vision of the leaders, because it will give to them new courage and confidence, we feel that we should with enthusiasm look forward to the World Jamboree in 1937 and to the fulfillment of our objective.

The Boy Scouts of Hamlin, in order to carry out their objective, are sponsoring a membership drive. During this drive we hope to not only enroll new members, but to maintain the interest of the older members. As we work, we keep in mind the message made by the Chief Scout Executive, Dr. James E. West, in which he made a universal plea for loyal co-operation. Let us carry on through the co-operation, through the spirit of devotion and intelligent consecration.

Thursday evening at seven thirty o'clock the Boy Scouts will meet again in the City Hall. Because further plans have been made for Friday, there will be a change from the

“WON'T YOU BE
MY . . . ?”

TWO hearts, one dart—they have come down the ages to say Won't-You-Be-My-Valentine and to remind us that in an age which bristles with dollar-signs and flaunts sophistication, Romance is not dead.

Then why not give a Valentine party with all of the old-fashioned which are supposed to be old-fashioned and which your guests will gloat over? Herald the event with a lacy valentine. If your shops are too modern to carry them, make the invitations by pasting paper lace on the edge of a red cardboard heart with two hearts and a dart drawn in the center. Place your initials in one heart and the initial of your guest in the other heart, and write underneath.

Guess Who
Is Inviting You
To a Valentine Supper

For a contest game, give the guests bows and arrows to shoot at a heart target. The winner should be presented with a heart-shaped box filled with heart-shaped nut cookies, and each loser who failed to hit the target might be consoled by being allowed to kiss one person for each arrow that went astray.

A Supper That's a "Honey"

Set the Valentine supper table with a lace cloth, red candles and a red heart-shaped box of candy at each place. And here is the supper menu with tested recipes:

Chicken and Ham Shortcake
Cranberry Jelly cut in
Heart Shapes
Grapefruit Cream Sherbet with
Cherry Garnish
Cocoanut Kisses
Fairy Gingerbread Coffee

Chicken and Ham Shortcake: Make a white sauce of two tablespoons butter, two tablespoons flour, one and one-half cups milk and the contents of two 6-ounce cans of evaporated milk. Add one slightly-beaten egg yolk. Then add the contents of one 12-ounce can of chicken which has been diced, one cup of diced cold boiled ham and two tablespoons diced pimiento. Add two tablespoons cooking sherry and season to taste with salt and pepper. Serve between and on top of split, hot baking powder biscuits which have been buttered. This serves eight persons.

Grapefruit Cream Sherbet: Soften one tablespoon gelatin in two tablespoons of cold water. Dissolve in grapefruit juice from a No. 2 can which has been brought to boiling. Add one and one-third cups sugar. Dissolve and cool. Add three tablespoons lemon juice and one well-beaten egg. Pour the cold fruit juice mixture slowly into one cup cream and freeze at once in refrigerator trays or in an ice-cream freezer. Stir often if you use the refrigerator. Serve garnished with chopped cherries. This serves eight persons.
